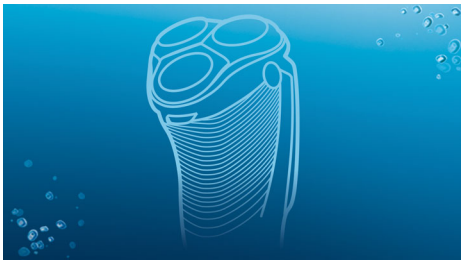
Highlights

Anti-slip grip



The grip's unique, ergonomic design and anti-slip materials make it easy to shave with precision and comfort.

Cordless use only

An efficient, powerful lithium-ion battery gives you more shaves per charge. Charge it for an hour and you'll have up to 60 minutes of shaving time – that's around 20 shaves. The shaver automatically adjusts its power to suit the way you shave, so your actual shaving time may vary. Charge it for 3 minutes and you'll have enough power for one shave.

Skin protection system

Rounded low-friction heads adjust to the contours of your face to limit skin irritation.

Pivoting and Flexing Heads

Flexing heads stay in close contact with your skin, while the pivoting neck adds an extra dimension of movement – all giving you a close, fast, and comfortable shave.

Water-resistant

For easy cleaning, and wet & dry use

Pop-up trimmer

Complete your look by using the Pop-up trimmer. Perfect for maintaining a moustache and trimming sideburns.
